The Northern Capitalists will Now

System.

Correspondence of the New York Times.

"Forty Irishmen employed by the Cam-

bridge, Massachusetts, railroad, refused

to work on Monday, because two negroes

were employed to work in the stables. The

consequence was that in a very short time

forty colored men took the places of the forty

Irishmen."

Speaking of the late strike in New York, the

Syracuse Union says:

"These car drivers were only receiving two

dollars per day for fourteen hours' work—a

sum barely sufficient to keep a prudent and

conscientious individual in that city and utterly

inadequate for a man of any family whatever,

and yet the stockholders in the companies

which employed them were reaping fortunes

for their labor, with perhaps one exception.

Such a system of wages only tempts, provokes,

and entices into dishonesty those whose in-

stincts would otherwise prompt them to prefer

an honest and honorable career, and demoral-

izes the community."

But, in lieu of making fair and reasonable

compensation to their employees, the stock-

holders and conductors who are now unemployed,

at least of the companies, or at least of all

of which having been chartered by a legisla-

tive body, and controlled by their legisla-

tive body, have hit upon the expedient of

employing negro drivers. A Republican paper

of the city calmly informs us that "when it

was positively ascertained that negroes had

been employed by the Sixth avenue company,

serious consequences were instantly appre-

hended, and though negroes are now being

employed, the latter are far from being dis-

pleased. Melancholy is the prospective condition

of the white laboring men of this country. A few

years ago the capitalists determined the war

of words, threats, insult, abuse, thieving

and John Brown's kidnapping upon the South

would be changed into a gigantic struggle of

blood for the negro, and it was done. It has

occasionally resulted in taxation to pay the

cost of expenditures, and the pockets of the

leaders and put into places, diamond

head dresses and riotous living. Indiana

pays annually, to the Federal government, in

round numbers, five millions of internal re-

venue tax, and three millions of tax for

making eight millions extra to the Federal

government annually on account of the war

for the negro. This is all thrown away.

When it is paid, it is not like money lent

at interest or invested in property, that brings

a return in interest and finally comes back

in principal. It is lost to the accumulator of

it just as much as if, after tolling and sweating

to obtain it, it was taken from him and thrown

into White river.

These eight millions a year ought to be as-

signed upon (taxation) to the Federal govern-

ment meeting of governors, etc., upon those

blood thirsty leaders who would have nothing

but blood and destruction, those as JOHNSON

calls them, Northern traitors, who caused and

carried on the war, instead of upon the labor-

ing men, who are not responsible for it; but,

at present, this can not be done.

These annually to be thrown away eight

millions must be lost by somebody in Indiana.

And the question is shall they be lost by the

laboring men?

The capitalists, from whom the money will

first be collected, will seek to throw this an-

ual loss forever upon the laborers, thus bring-

ing them down to eternal servitude—that con-

dition in which they can not advance, can not

get rich, in their lifetime, as used to be the

case under Democratic administration, but

can barely live in a half starved condition.

Among the modes of doing this will be:

1. Reducing wages.

2. Increasing the number of hours of labor.

3. Working the laborer harder while he does

work.

4. Bringing in foreign white laborers so as

to produce that competition that will bring it

down.

As to this last method, we may observe, it

can scarcely be made a success, because, as

soon as white foreign laborers come, they at

DR. FARNSWORTH,

DISPENSARY FOR

PRIVATE DISEASES,

No. 22 West Maryland St., between Meridian

and Illinois, Indianapolis, Indiana.

From an imperfect knowledge of the nature and

treatment of VENEREAL DISEASES, and a natural rep-

ugnance to that kind of practice, the regular practitioner

very generally turns off his patients with a defective

treatment, to pass through the different stages of the

disease with comparative little relief, while the special-

ist, who has devoted years to the study and treatment

of Venereal diseases can readily effect a cure, and save

the patient pain and money.

Having made this branch of the profession a special

study during a large and varied practice of several

years, Dr. Farnsworth is now enabled to treat Syphilis

in all its stages, upon a system different from any com-

monly in vogue, and one which he guarantees to effect

a cure.

As the Doctor's remedies differ widely from those in

general use, and originated in his own discovery, he

feels fully justified in saying that he has no rival in

the city who can remove any venereal disease from

the system, and cure disease in its later stages. Also,

GONORRHOEA, GLEET AND STRICTURES perma-

nently cured without pain or inconvenience to the pa-

tients.

## CITY NEWS.

**Amusements This Evening.**  
METROPOLITAN THEATRE—Miss Lotta—Female Detective—Family Jars.  
MAJESTIC HALL—Grand Moving Panorama of the Bible.

Mr. McNabb was sworn in as a member of the City Council last night, from the Fifth Ward.

Dr. Thompson made a public apology to the City Council last night, for his conduct of the night previous.

The Journal seems to be exercised over the Young Men's Democratic Club, and facetiously christens it the "Chicago Club." The party whose interest the Journal is in is fast becoming evanescent.

The Democratic Club meeting for the Fifth Ward will meet at the Capital Garden on Thursday, instead of Wednesday evening, as announced.

Hon. Joseph E. McDonald will address the Young Men's Democratic Club at Military Hall on Saturday evening.

The city editor of the little Gazette is terribly perplexed about the item. That same article has been profile of items for his city column. After the Gazette's editor has read the moral character "gets through with the circle," he would refer him to the canal and Lake McCarty. They still exist.

The Metropolitan was again crowded last night, as it is sure to be every night this week. The plays, "The Female Detective" and "Nan," were rendered in a manner to bring down the house.

## CITY COUNCIL.

COUNCIL CHAMBER.

MONDAY EVENING, APRIL 23.

Council met pursuant to adjournment. Present: Mayor, Councilmen.

Mr. McNabb, from the Fifth Ward, was qualified and took the oath.

Dr. Thompson arose to a question of privilege, and explained his unfortunate altercation with Dr. Jameson, making a gentlemanly and very courteous apology for his infringement of the laws of the city, the rules of the council, and the proprieties of the council chamber.

He offered apologies to the councilmen, the lobby and the mayor. The Doctor was glad he lived in a country where such things were discountenanced, and assumed all the blame of the assault and battery, entirely relieving Dr. Jameson of all blame in the matter.

**PETITIONS.**  
By Mr. Brown: From the property holders, asking for paving sidewalks with brick and stone curbing on Delaware street, between Logan and McCarty streets. Referred to the Board of Public Improvements.

By Mr. Jameson: A resolution asking the good people of the city to use their best efforts to keep the alleys and private yards clean, under the present provisions of the city ordinance, as the day police are not sufficiently numerous to enforce their observance.

The preamble sets forth that the health of the city depends upon the cleanliness of our streets, and alleys, and yards. The resolution was adopted.

By Mr. Loomis: Allowing parties on Pine street, between Fitcher and Forest avenues, to grade the street between the points named. Referred to Board of Public Improvements.

## ASSAULT.—Yesterday evening policeman

Baker, in attempting to arrest a man

beating his wife, met with opposition, when he

resorted to rather extreme measures and vigor-

ously piled his mace to the knowledge box of

the obstinate husband. The latter, not relin-

quishing the policeman's method of enforcing his

will, in turn pitched into Baker, and pretty

badly damaged his physical beauty. Brier then

took down to the scene of conflict a squad of

valiant stars for the purpose of assisting him,

and restoring the policeman's dignity, who had,

however, in the meantime made good his escape.

The stars searched through out houses,

hen coos, wood piles and every place likely

to contain the fugitive body of the prisoner,

but to no purpose. Hence, it is said, will

keep him, on account of his beating, for

some days, while the Irishman will continue

to sniff the air of Heaven as a free man, instead

of the "noisy name of the dungeon."

It was not long since a certain city

editor was induced into editorial garments with

a most flattering complimentary notice from

the pen of his "chief," informing his patron

that the incident had been a "good moral

character," in such a manner as to lead

people to conclude that "good moral

characters" and city editors were not altogether

synonymous terms. The ostentation of the

editorial was the more noticeable, coming, as it

did, from the head of the aforenamed paper,

the emphatic commendation led some to sup-

pose the young gentleman thus heralded would

inaugurate a new era in local matters. But,

alas! We see too he has taken to "pulling

his punches," and recommending the "good

moral character" as a "good thing to take,"

and in the same column we find a report of the

Sunday temperance meeting, which he confesses

he was absent from. Verily, the "native

resolution" could not stand up under the

pressure of his "own city." Why, then, C. G. G.

don't present us with any of your T. C. G. G.

Why thusly?
